The applicant is requesting design review approval to install a wireless communication facility, on the roof of an existing auditorium/gymnasium building, inside a proposed 7-foot wide by 8-foot long by 10-foot high cupola. Three 3-foot tall panel antennas, two microwave antennas, three RRU units and one GPS unit are proposed to be installed inside the cupola. The associated equipment cabinet will be installed inside the attic of the existing building. At a previous meeting, the Commission directed the applicant to redesign the cupola to be more in proportion with the existing building, incorporate other architectural features that currently exist on the building, and redesign the cupola to accommodate future co-location at the site. In addition, the Commission is also requested to accept the Categorical Exemption pursuant to section 15303 (Class 3) of the State Guidelines for Implementation of the California Environmental Quality Act (CEQA) of 1970, as the project is determined to be Categorically Exempt which consists of construction and location of limited numbers of new, small facilities or structures; installation of small new equipment and facilities in small structures; and the conversion of existing small structures from one use to another where only minor modifications are made to the exterior of the structure. Assessor's Parcel Number: 149-010-041 & 149-010-082
